

Dust Mitigation Contract

DAMPIER, WESTERN AUSTRALIA

PROJECT OVERVIEW

CLIENT: Rio Tinto Iron Ore
DATE: 2013 - 2016
ENVIRONMENT: Brownfield

G&S Engineering were engaged to supply a team of maintainers to complete the ongoing maintenance, repairs and installation of all equipment to ensure dust mitigation was kept within acceptable levels across the Dampier Operations. This included project management, planning, supervision, OHS&E, reporting responsibilities as well as equipment and tooling for the dust contract and the team onsite.
