

# Maintenance Support Contract

ROY HILL MINE, WESTERN AUSTRALIA

## PROJECT OVERVIEW

**CLIENT:** Roy Hill  
**DURATION:** 2016 - ongoing  
**ENVIRONMENT:** Brownfield

G&S Engineering are engaged to supply backfill labour to support maintenance teams during handover of newly constructed plant at both Roy Hill Mine site and Port facility which involves approx. 50 people on ongoing basis.

Scope includes the supply of short term shutdown teams to complete maintenance tasks at both mine site and port facility on an ongoing basis approx. 10 -100 people.

G&S work closely with mine owners planning teams and constructor teams to minimise downtime and address challenges associated with a newly commissioned plant.

**SAFETY IS OUR FIRST  
CONSIDERATION**
