

Processing Plant Dismantling

TARMOOLA GOLD MINE, WESTERN AUSTRALIA

PROJECT OVERVIEW

CLIENT: Pacer / Silverlake Resources
DURATION: June 2012 - August 2013
ENVIRONMENT: Brownfield

G&S was subcontracted to dismantle and remove the Silverlake Resources acquired Tarmoola Gold Mine processing plant near Leonora.

Works included refurbishing, transporting and reinstating equipment that was able to be re-used at Tuckabianna, almost 500km away near Cue.

G&S provided fully equipped and managed site teams, along with project management, engineering, procurement and logistical support from G&S Engineering's Perth office.
