

Processing Plant Reinstatement

TUCKABIANNA GOLD MINE, WESTERN AUSTRALIA

PROJECT OVERVIEW

CLIENT: Pacer / Silverlake Resources
DURATION: 2013
ENVIRONMENT: Greenfield

G&S Engineering was awarded the contract as the Structural, Mechanical, Piping (SMP) subcontractor for Silverlake Resources Limited to reinstate the Gold Mine processing plant at Tuckabianna near Cue.

The scope of work included the provision of fully equipped and managed site teams, along with project management, engineering, procurement and logistical support from G&S Engineering's Perth office.

Following demobilisation of SLR's Head Contractor, G&S was employed directly by SLR for the completion of the re-instatement works.
